## PROFILE

# FOOD AND TECHNOLOGY WORKER

*A Food Technology Worker is a professional in the food industry who plays a key role in maintaining food quality and improving production processes.*

*Their main responsibilities include ensuring food safety, preventing contamination, and upholding the overall integrity and quality of food products.*

The most important duties of a Food and Technology Worker are :

- ✓ Preparing food, as well as product preparation and handling
- ✓ Ensuring that all aspects of food production and safety are properly managed
- ✓ Responsible for exchange of information, both internally and externally

**We assists in aligning internship and examination standards**

We offer our services to support technical vocational schools, academies and training institutes across Indonesia, to improve and reach international VAPRO standards for education and training.
